After Care Instructions For Declawed Cats.

1. **Remove bandages within 24 hrs.** If there is any drainage or swelling please call the clinic!
2. **Use shredded paper or "Kitty Soft"** (litter made from recycled news papers) in the litter box. **Litter can cause infections!** After 10 days barring no complications you can go back to your standard litter.
3. If your pet will not put weight on its paws after three days, please call.

Thank you!
